

MOUNT UP MEDIA

PREPARED FOR

VALENCO

Share a Scoop, and the system behind it

Ronin Stern and Jake, September 10, 2026

Presented by Adrianna Melgosa, Head of Sales, Mount Up Media

MOUNT UP MEDIA
Stay Resilient

FROM OUR FIRST CALL

Here is what you told us, in your own words

"We third party test everything." (Ronin, Sept 3)

You work with high level MMA fighters and D1 programs.

TikTok Shop opened days before we talked.

"We need the actual pieces for those Meta ads." (Ronin, Sept 3)

"You don't have to go to the gym alone." (Ronin, Sept 3)

"Probably a day or two worth filming." (Ronin, Sept 3)

VALENCO.ORG, SEPTEMBER 2026

WHAT WE FOUND

The store runs. The
proof and the ad
creative do not.

Ronin, you built the store, the email flows, and the shipping.

Klaviyo, Judge.me, UpPromote, subscriptions, a quiz, loyalty points. All live.

The Meta pixel is on. Zero ads have ever run.

Most product images are renders. Your label is the real thing.

Your COAs sit in a PDF list. Nothing has been filmed.

None of your proof has been
filmed by a crew.

HOW SALES HAPPEN TODAY

Six channels working, none of them feeding each other

Paid UGC creators. Smaller ones, out of your pocket.

Outbound reps into gyms, fraternities, and wellness clinics.

MMA outreach, which Ronin told us is mostly Jake.

TikTok Shop, live since days before our first call.

Word of mouth and your own posts.

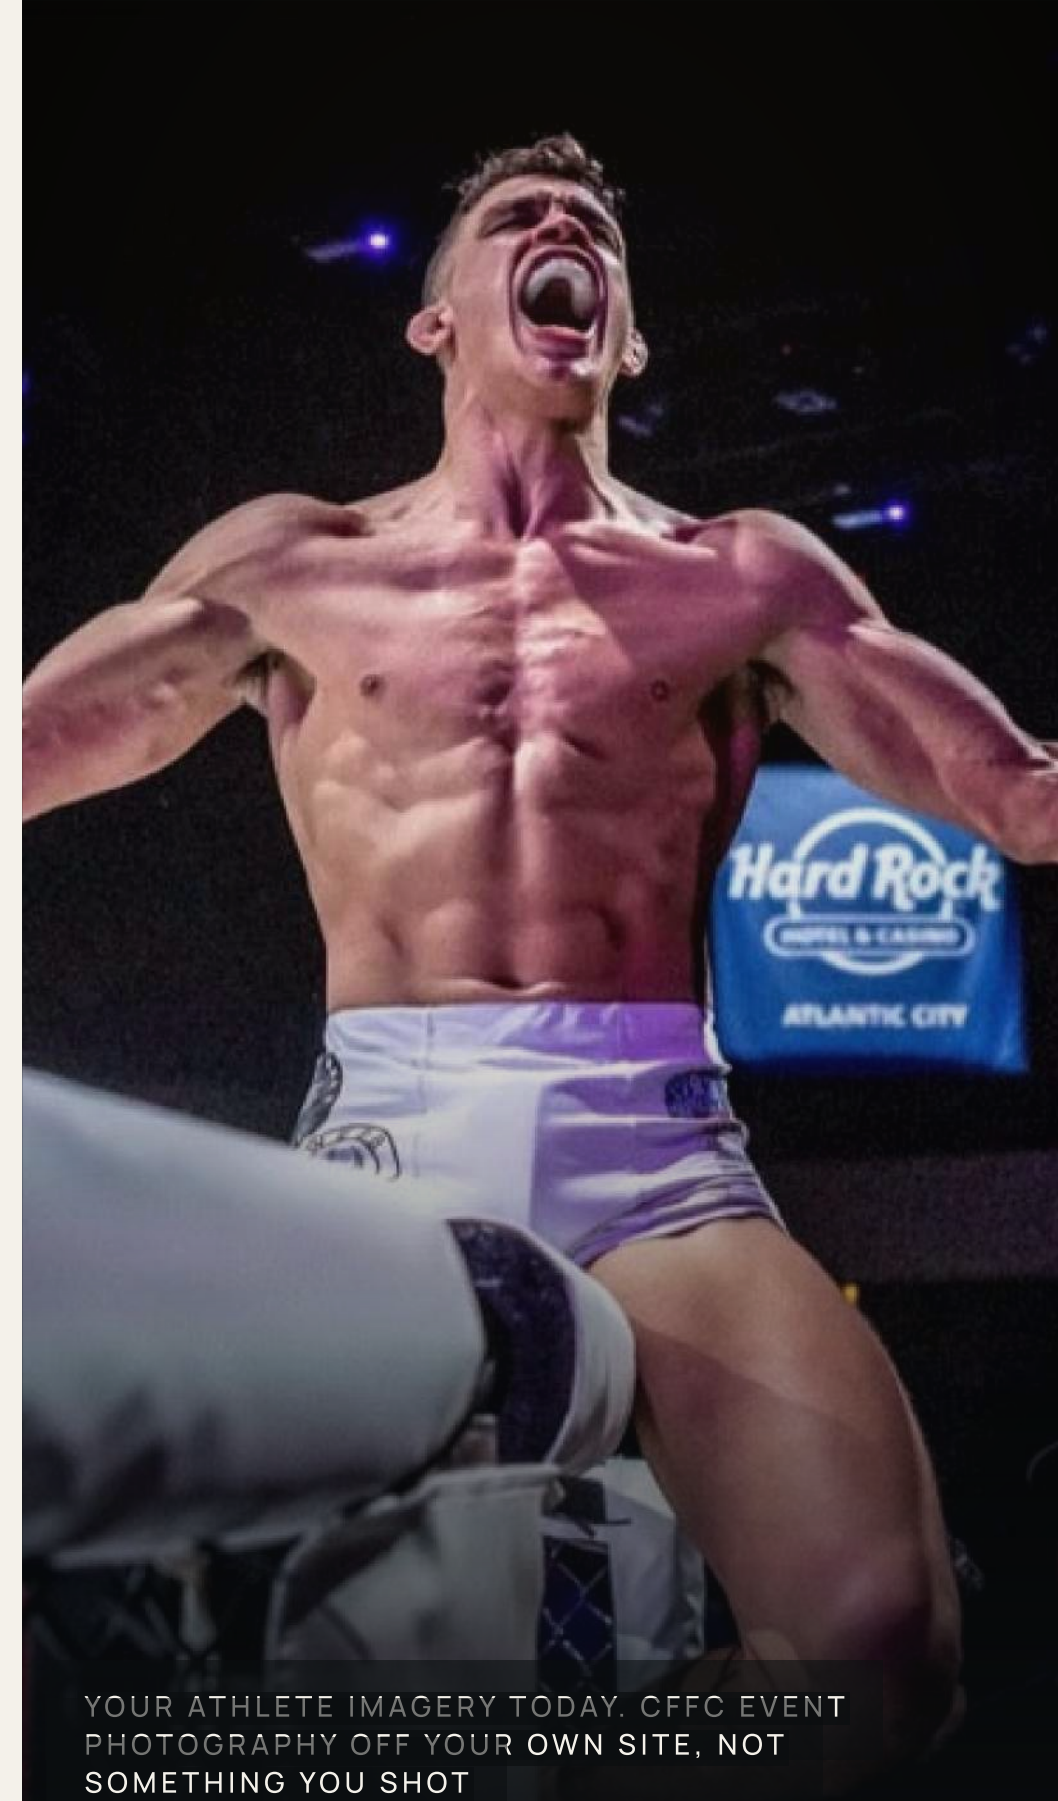

Flyers and business cards. Guerrilla, on foot.

Every one of these works. None of them hand off to the next.

Six things you already own that are not finished yet

- 01 Judge.me is installed. The pages we checked run zero to five reviews.
- 02 Meta is set up and idle. Not one Meta ad has ever run.
- 03 TikTok Shop is live and nothing paid has run there either.
- 04 Affiliates at 12 percent. Your page promises them creative. Does it exist?
- 05 Reps working gyms, fraternities, and clinics. What do they hand over?
- 06 Your fighters appear on your site as event photography, not footage you shot.

None of that needs a new tool. It needs footage.

YOUR ATHLETE IMAGERY TODAY. CFFC EVENT PHOTOGRAPHY OFF YOUR OWN SITE, NOT SOMETHING YOU SHOT

THE PATH WE RECOMMEND

One shoot, two outputs, and the loop that keeps paying

One capture. Two jobs. The campaign and the proof.

Same day, same crew, same people, two different outputs.

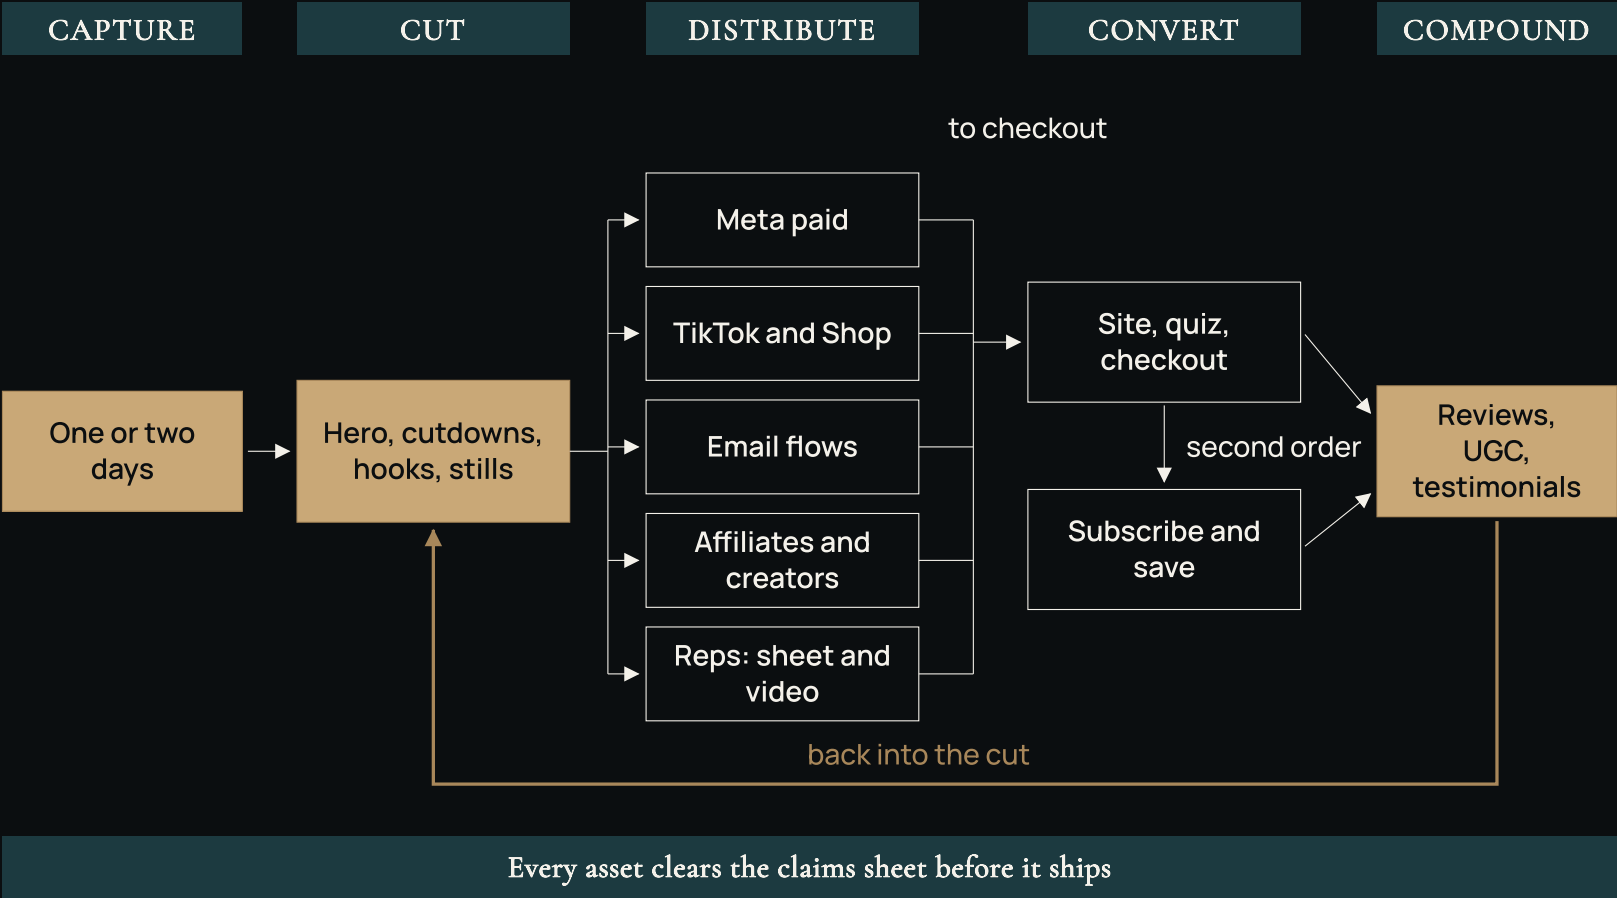

The proof is what makes the ads believable.

The reviews are what make the product page survive a check.

The best line from a real customer becomes the next hook.

That last step is the only part that compounds.

Most of this map is already yours.

RONIN'S IDEA, BUILT OUT

Share a Scoop makes the product the invitation

Share a Scoop is Ronin Stern's idea, brought to us September 3.

"I haven't seen it done in the supplement space in any sort of way."

One person opens a shaker. The person at the next rack looks up.

The scoop gets offered. The session starts.

Then it grows past the gym, into the rest of the week.

Nobody's body changes on screen. Nothing gets promised.

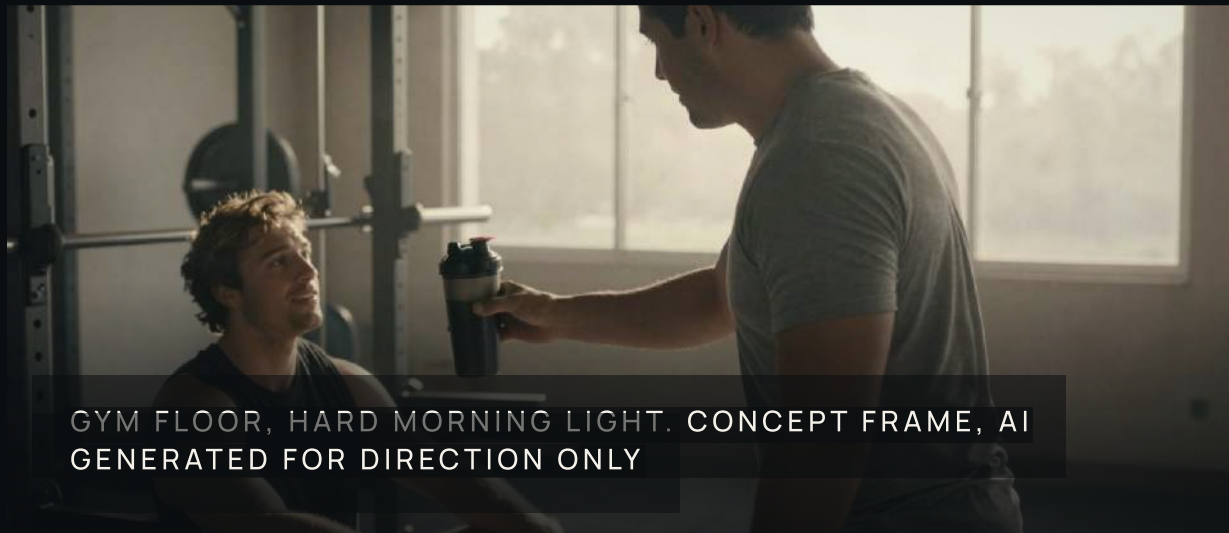

Your idea. We are the ones holding the camera.

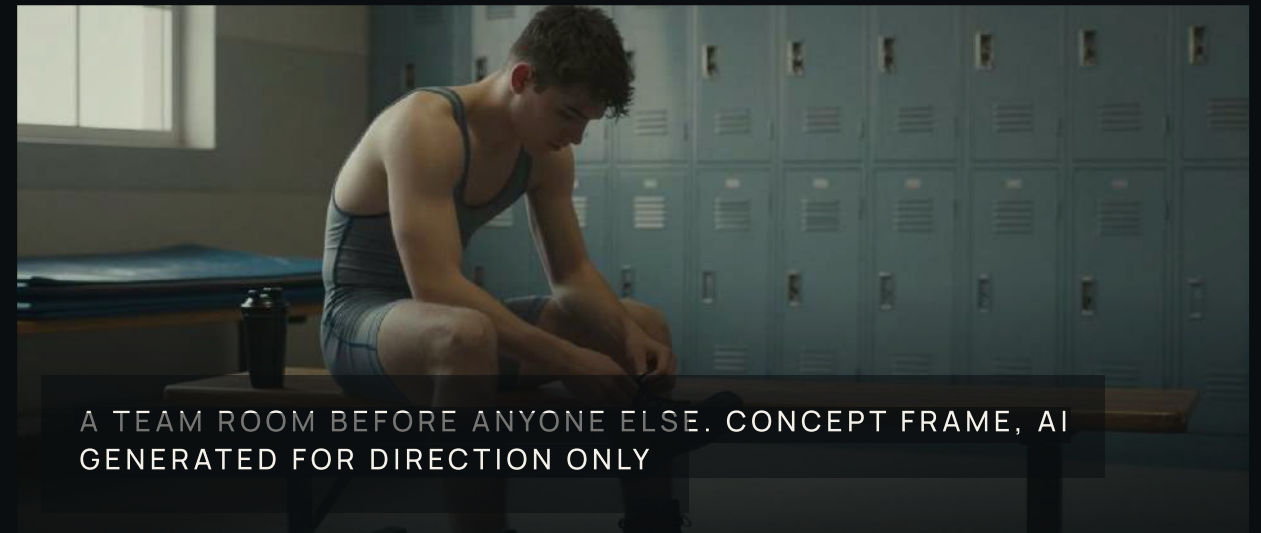

CONCEPT FRAME, AI GENERATED FOR DIRECTION ONLY

WHAT THE CAMPAIGN LOOKS LIKE

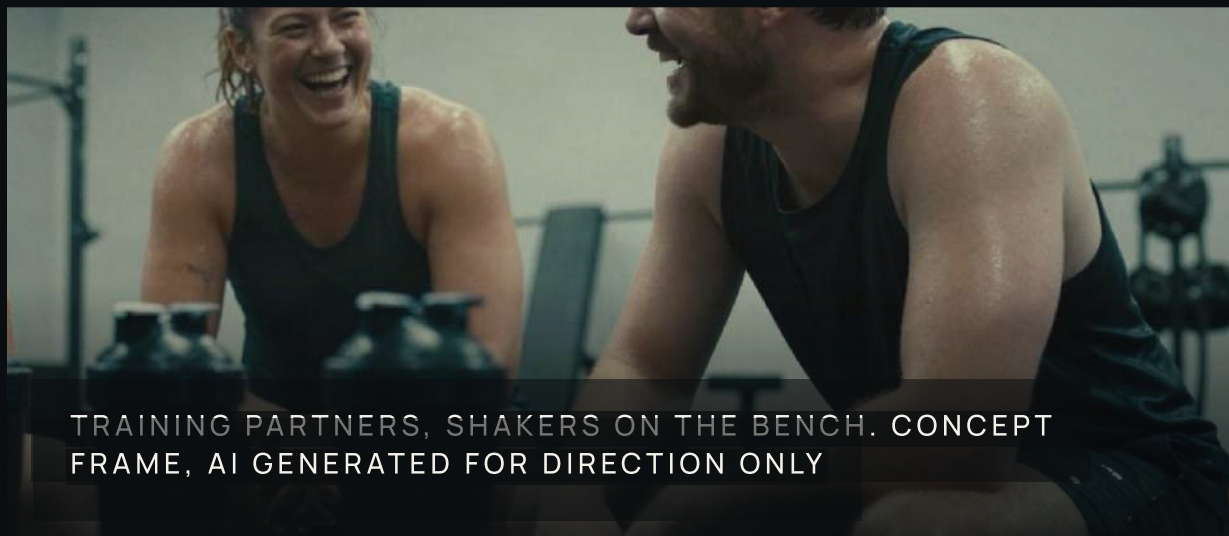

Direction frames first. The shoot makes them real.

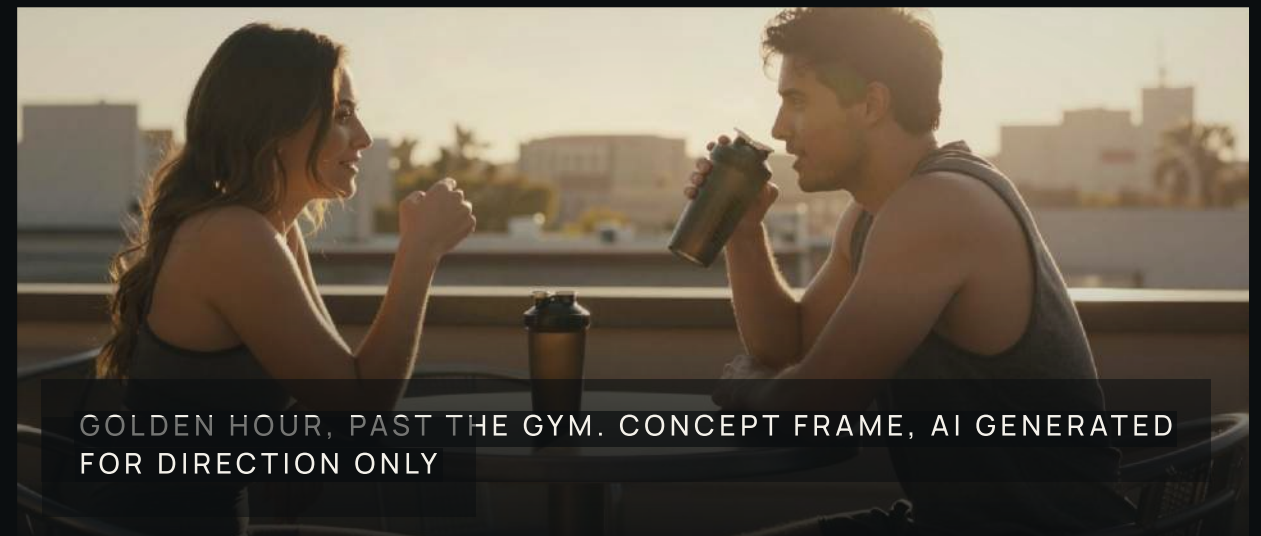

GYM FLOOR, HARD MORNING LIGHT. CONCEPT FRAME, AI GENERATED FOR DIRECTION ONLY

A TEAM ROOM BEFORE ANYONE ELSE. CONCEPT FRAME, AI GENERATED FOR DIRECTION ONLY

TRAINING PARTNERS, SHAKERS ON THE BENCH. CONCEPT FRAME, AI GENERATED FOR DIRECTION ONLY

GOLDEN HOUR, PAST THE GYM. CONCEPT FRAME, AI GENERATED FOR DIRECTION ONLY

Every frame here is direction. None of it is the product.

Most of this map already runs. Two things are missing.

Live: Shopify, Klaviyo, Judge.me, UpPromote, subscriptions, loyalty, the quiz.

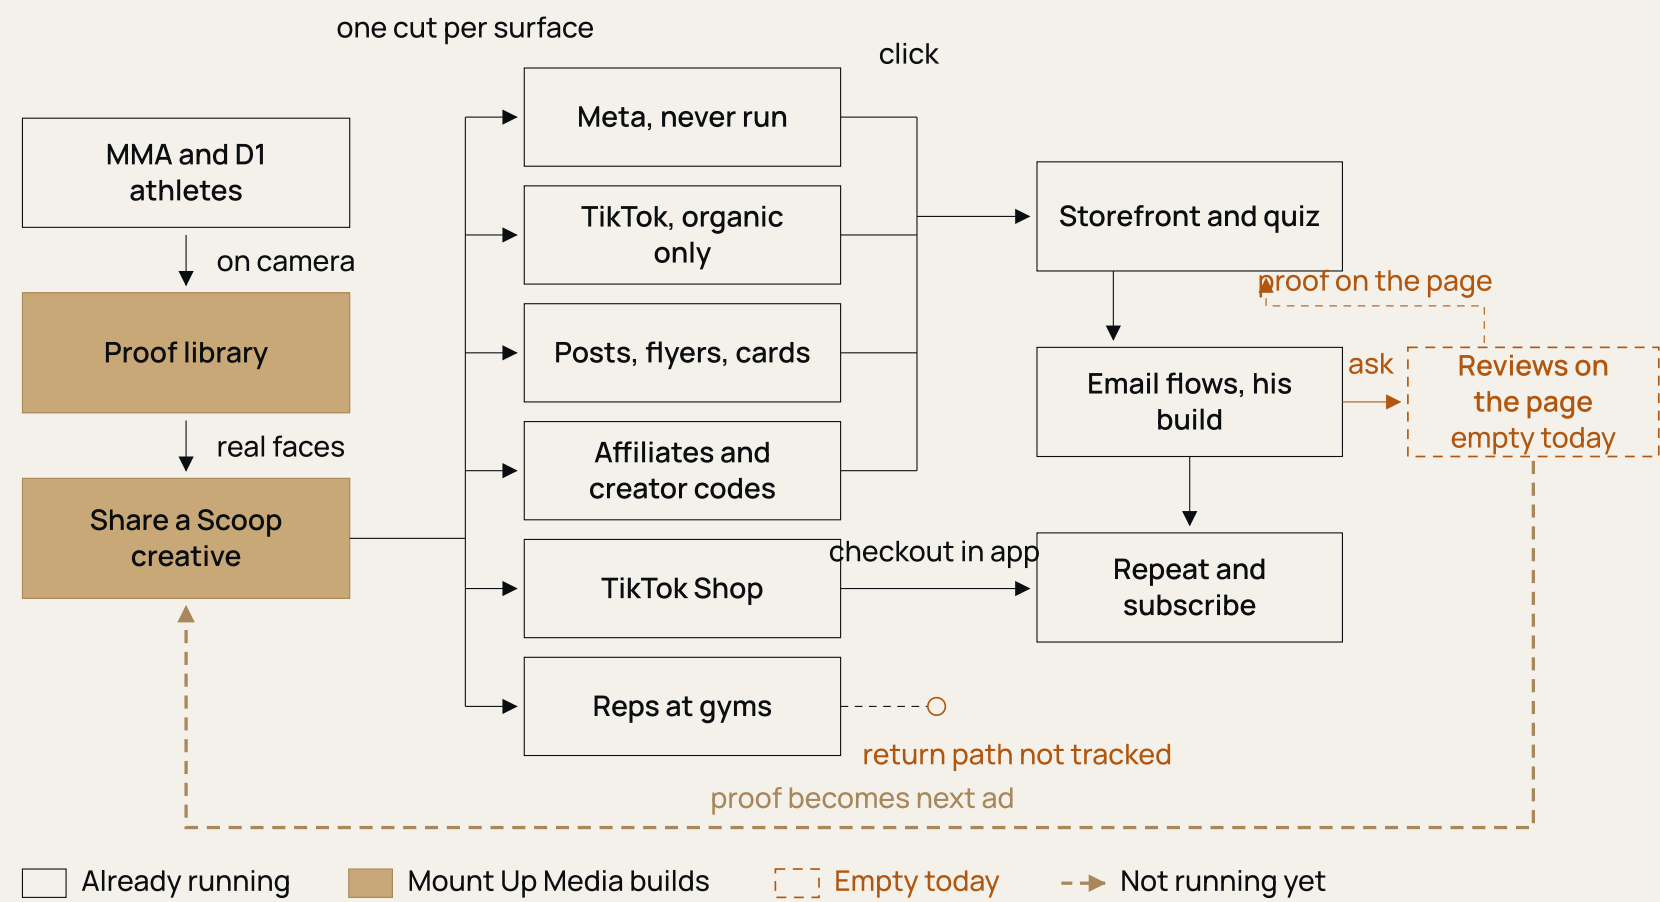

Live: the Meta pixel, the Google tag, your own first touch tracking.

Missing: creative built to be tested against itself.

Missing: proof captured on camera.

Everything else on this map, you already built.

We are not rebuilding your backend. We are feeding it.

ONE SHOOT, 60 TO 90 DAYS

One or two days of filming feeds two to three months

One hero spot, 30 to 45 seconds.

Three 15 second cutdowns and six short openers to test.

Ten verticals for TikTok Shop and organic.

Stills that replace the renders on your product pages.

The label, the panel, and the COA on camera.

Founder soundbites, plus athlete soundbites once releases clear.

One day on set. Enough to run for two to three months.

WHAT A LIT PRODUCT FRAME LOOKS LIKE
WHEN WE SHOOT IT. CONCEPT FRAME, AI
GENERATED FOR DIRECTION ONLY

THE FULL TRAINING STACK ON YOUR
STOREFRONT TODAY

THE EMAILS YOU ALREADY SEND

Klaviyo is yours.
We just give it
something to send.

Quiz welcome: the code, then the label, then the reason to use it.

Abandoned checkout: one objection per email, nothing stacked.

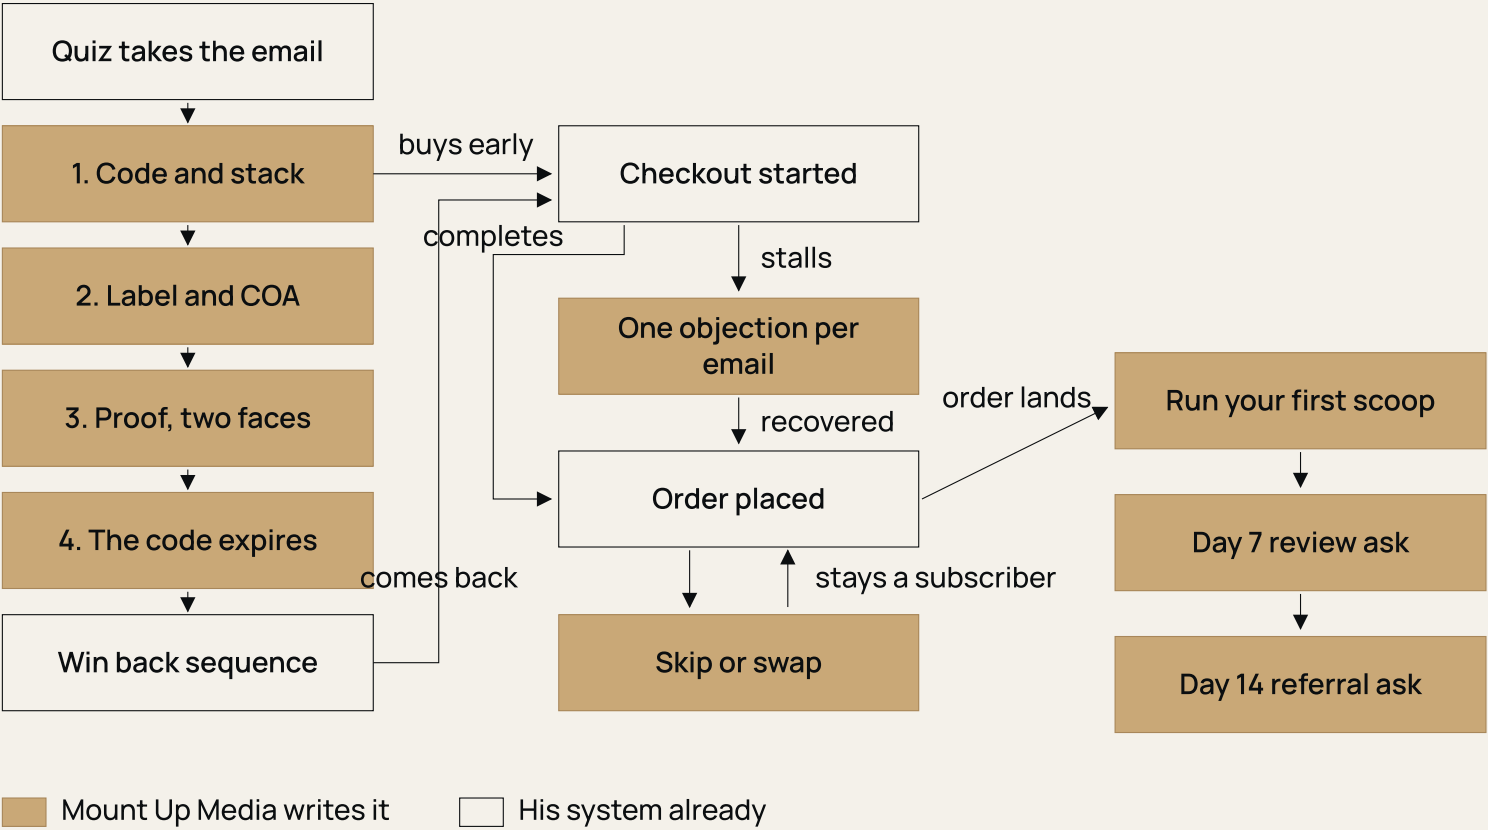

Post purchase: how to run your first scoop.

Review request. Day 7 on protein, day 21 on creatine.

Day 14 refer a friend. Share a Scoop as an actual mechanic.

Win back at 60 and 90 days.

You keep the account. We write what goes in it.

One naming rule turns your own tracking into a scorecard

One naming rule on every link, every flyer, every rep.

The asset id rides inside the tag, so you see which cut sold.

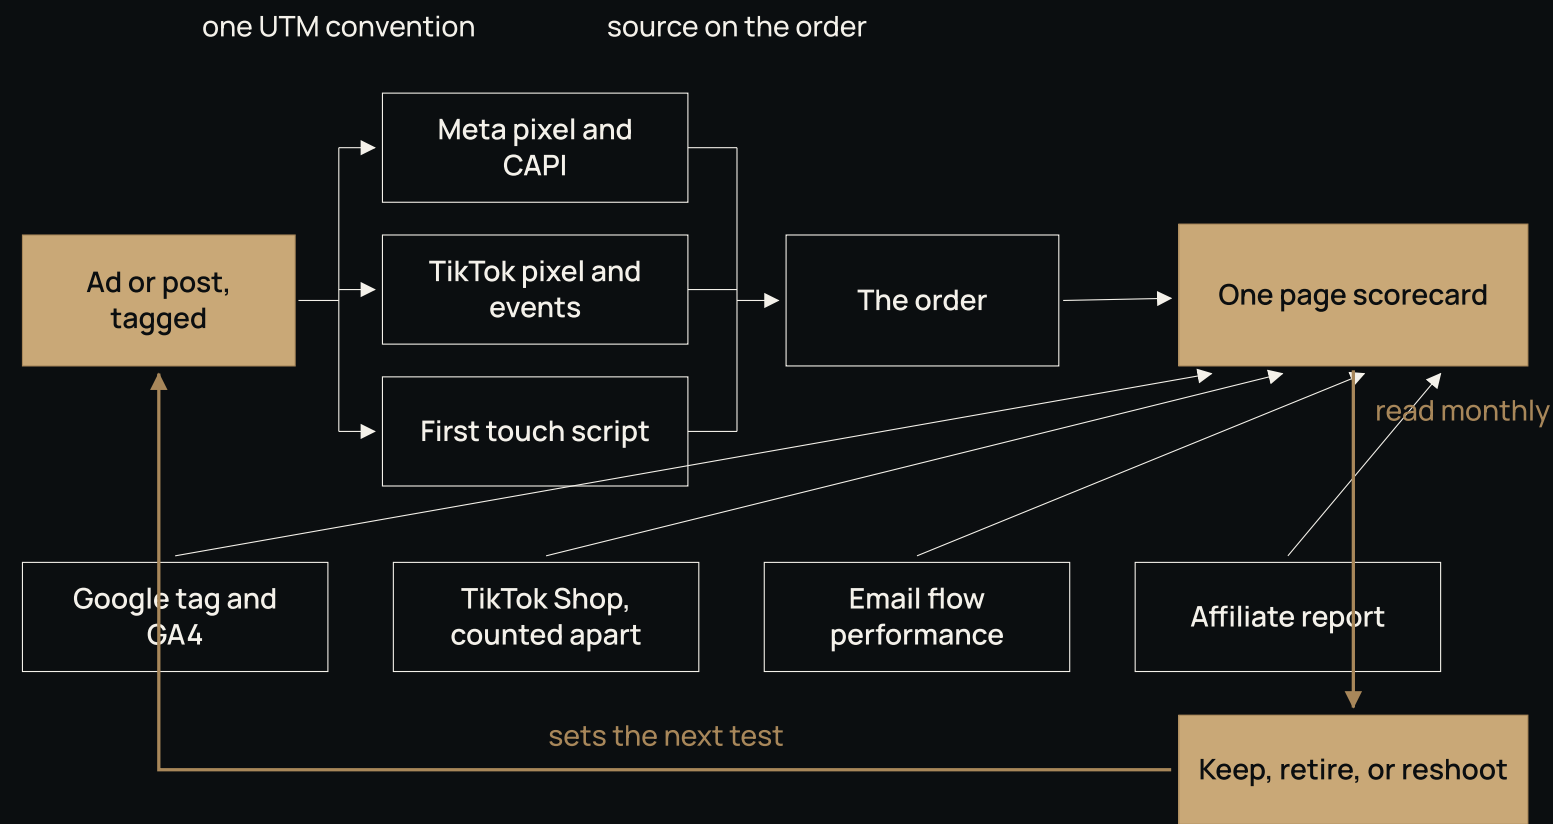

Conversions API verified firing before the first dollar of spend.

TikTok Shop gets its own row. Nobody double counts it.

Nine numbers per asset, from hook rate to cost per new customer.

One page a month. Keep it, retire it, or reshoot it.

No borrowed benchmarks. Your first 30 days set the baseline.

EVERY LINE CLEARS THIS

Ten checks on every hook, every cut, every caption

- No disease. Nothing treats, cures, prevents, or heals anything.
- No bodies. No weight loss, no muscle gain, no before and after.
- No shame. We never tell the viewer something is wrong with them.
- Real people. Every testimonial is a real person saying a true thing.
- Claims carry receipts. Any performance line ships with its dose and study.

- No promises. Nothing guaranteed, effortless, or on a timeline.
- No FDA. Registered is not approved, and we never blur the two.
- Adults only. Everyone on camera is 18 plus and targeting matches.
- Paid gets said. Sponsored talent is disclosed up front, on screen.
- Safe lanes win. Doses, labels, COAs, taste, routine, showing up together.

One of the safest things you can film in this category.

Athletes, product in hand, one person lit to hold attention

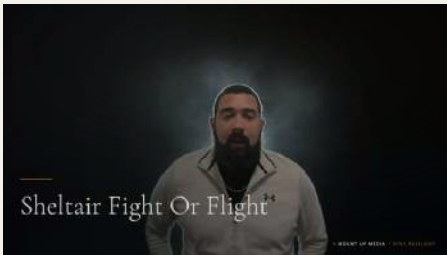

Harper's Bazaar

Venus and Serena Williams, at the top of their sport.

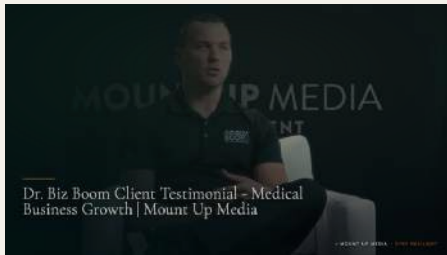

Tampa Water Street Marriott

Product in the hands of the person making it.

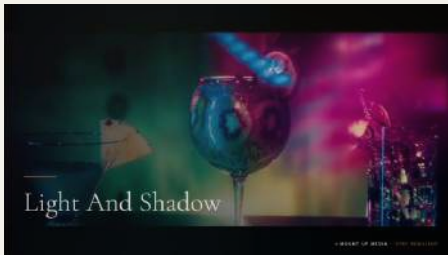

Sheltair

One person on camera, lit so nothing else is needed.

Dr. Biz Boom

A customer testimonial shot as a real production.

Light And Shadow

What our product close ups look like.

WHAT WE RECOMMEND

Two shoot days, twenty pieces, and a way to read them

SHARE A SCOOP LAUNCH BUNDLE

The campaign, and the system that tells you which part of it sold.

- Two shoot days. Gym first, community second.
- One hero spot, three cutdowns, six short openers.
- Ten verticals, stills, founder soundbites. Athlete soundbites if the paperwork clears.
- Pixels verified, one naming rule, flows layered onto your Klaviyo.
- A proof capture flow, so reviews come to you. Incentivized ones get labeled.
- A scorecard and a 30 day report that ranks every piece.

WHAT IT IS NOT

This is not ad spend. The media budget stays yours. We build the creative and the measurement. We do not promise a sales number, because the ad budget, the offer, and the fulfillment are all yours.

Twenty pieces, and a way to tell which ones sold.

HOW IT ACTUALLY RUNS

Pre production, shoot,
rough edit in two weeks,
then read it

Every date here is a date we work to.

THREE WAYS IN

Pick the one that matches
how fast you want to move

STARTER

Creator Test

\$3,300

Prove the format before the bigger commitment.
One capture day, six native verticals, tracking on.

RECOMMENDED

Share a Scoop Launch Bundle

\$11,500

The campaign and the system that tells you which
part of it sold. Two shoot days, about twenty
pieces.

ONGOING

Monthly Content and
Backend Lane

\$5,500 PER MONTH

Keeps the engine fed after the launch. Not for
today. Nothing to maintain until the first campaign
is out.

50 percent at signing, 50 percent at delivery. This is not ad spend. The media budget stays yours.

Founding prices. You are the first client we run this package for.

WHAT HAPPENS NEXT

Lock the scope this week. Shoot inside two weeks.

Today: pick the package and name the hero product.

By Friday, September 11: scope, cast, and location locked.

Shoot window: the two weeks after that.

What we need: the restock date on the hero product.

Who holds the athletes' releases, and has a compliance office cleared them?

And whether christian15, manny15, and cade15 can run in paid ads.

THE POINT OF ALL THIS IS THAT YOU DON'T HAVE TO WORRY ABOUT IT.

"You don't have to be a high level athlete to fuel your body with high level products."

Ronin Stern, September 3
